

expectation loves surprise

Discover the diverse career opportunities offered by the world's leading chemical company. www.basf.com/career

We are the world's leading chemical company because we offer intelligent solutions for our customers and for a sustainable future. We link and develop people with diverse talents all over the world. For you, this means a variety of ways to advance. Not only your performance but also your personality matter to us. At BASF, careers develop from opportunities.

Ludwigshafen is the world's largest integrated chemical complex and home to Group headquarters. BASF's heart is also located in the heart of Europe's Rhine-Neckar metropolitan region. You will find this to be an attractive place for both work and play. We are looking for an

Working area:

Logistics and Supply Chain Management

Location:

BASF SE, Ludwigshafen

Working hours:

Full-time

Contract Type:

Temporary

Intern Distribution Overseas (m/f)

What you can expect:

As an intern in team of distribution overseas, you will support the development of a transport demand forecasting model. From the beginning, you will be working as a project member on the further development, improvement and usage of an MS Access-based data model to forecast BASF-transport demand in the field of overseas distribution. This will entail programming in MS Access, further enhancing the calculation concept, and developing an appropriate user-interface. Presentation and documentation in English of the methodology and results will also be part of the role.

What we expect:

You are studying IT, Business IT, Business Engineering or Operations Research preferably majoring in logistics and nearing the end of your degree. Analytically minded, you have advanced knowledge in MS Access including VBA programming skills, MS Excel as well as SQL and logic of relational database systems. Beyond that, you are goal oriented and have the ability to work well independently. Ideally you have basic knowledge in MS Powerpoint and other programming languages as well as SAP BW. An excellent level of English in written form is mandatory for this role.

We offer:

Responsibility from day one in a challenging work environment and "on-the-job" training as part of a committed team.

You are working on individual sub projects during your min. 3 months internship. Comprehensive understanding of distribution planning process in the world's leading chemical company.

Expect to be surprised by the exciting range of career opportunities at BASF.
