SUNNY CALIFORNIA**

INTERNSHIP 'TECHNICAL OPERATIONS' – LOS ANGELES, USA

About MindMatics

MindMatics is one of the leading providers of mobile services and solutions. As one of the world's largest mobile interaction companies, MindMatics rolls out campaigns for major brands such as Sony, MGM, VISA, and Porsche. MindMatics is also a leader in interactive television, delivering services for hit shows such as Deal or No Deal and America's Top Model.

In a Nutshell

- We are looking for highly motivated interns to work on technical services
- Start date flexible, preferably **March 1st, 2009**
- Internship period: **4 to 6 months**
- Attractive stipend
- If you are looking for an empowering and challenging opportunity in a dynamic sector combined with a professional, positive working environment, don't hesitate to apply!

The Role

You will work closely with the Head of Operations on the following areas:

Project Management – You will assist with project management tasks such as service delivery, quality assurance, documentation, and reporting. This will also include direct contact with our major clients.

Product Management – You will make a real impact on our products! Your input on market research, testing and client feedback will make our products the best available products in the market space.

Information Systems Management – You will support the network connecting our Los Angeles office and our headquarters in Munich. You will also be responsible for maintaining office workstations.

Requirements

We are looking for a candidate who possesses a strong technical background and interest in computers.

An ideal intern:

- Working on a degree in a technical field (e.g. Computer Science) or business, with a strong background in science (e.g. classes in mathematics, computer science, etc.)
- Strong computer skills. Proficiency in Microsoft Office, Visio and XP. Basic Linux knowledge and experience in network administration a plus
- An energetic self starter who is fluent in English
- Strong interest in wireless devices and applications; willing to learn about new technologies and business operation

Please email your application along with a short resume, and available start date to:
