

# getsafe

Getsafe is reinventing insurance. The insurtech startup from Heidelberg is creating technology to make insurance simple, transparent, and fair: With just a few clicks, customers can learn about, buy, and manage insurance conveniently on their smartphone. Getsafe sees itself as a technology company that is active in the insurance sector - not the other way around. Together with renowned partners such as Munich Re and leading venture capital investors, Getsafe is bringing the concept of multi-line insurance into the digital age in a consumer-friendly way.

Join us as:

## Data Science Intern (m/f/x)

the company

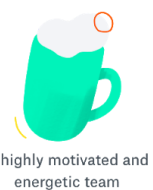

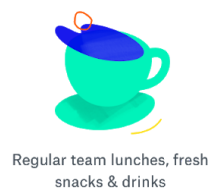

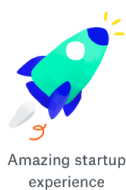

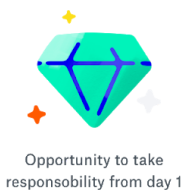

### YOUR TASKS
