Internship Singapore: T-Systems (IT, Business).

Length of internship: 4 - 6 months, Start Date: 02.06.2008

T-Systems is one of Europe's leading providers for Information and Communications Technology (ICT). A division of Deutsche Telekom group, we have a team of over 50,000 people in 24 countries and the world's most modern telecommunications and IT infrastructure. We are a global partner for multinational corporations and public institutions by offering our combined expertise in ICT to optimize the processes of companies, reduce costs and thus give them additional flexibility in their core business.

Our new Intranet Portal, based on Microsoft SharePoint 2003 Technologies, will be migrated to SharePoint 2007. Main objective should be the transfer of present data to the new portal and the integration of business processes in this new environment.

Internship Tasks:

- Revision of regional intranet concept
- Administration of the portal
- Implementing processes into Microsoft SharePoint 2007
- Creating SharePoint workflows
- Intranet Portal support to the employees
- Helping with other daily tasks

Your Qualifications:

- Student of a Computer Science or Business Management degree
- Fluent English
- Advanced Microsoft Office knowledge (with Microsoft SharePoint), Advanced knowledge in internet/intranet-structure and rights management, Knowledge of XML preferred
