Ms. Hauptmann (Tel. +49 6227 7 48599)

Additional Information
Start as soon as possible.

Reference Code
DE-53667588-EN-10-002

PURPOSE AND OBJECTIVES

Our SCRUM teams in three locations require a continuous integration infrastructure in order to deliver shippable software at the end of every 4-week iteration. The task to build, maintain and enhance this infrastructure is assigned to one of those teams.

You will be part of a team of experienced developers and make an important contribution to innovative Product Development at SAP. You will closely work together with the developers and gain experience in the latest technologies as well as in lean development methods.

EXPECTATIONS AND TASKS

Your task will be to build up, maintain and enhance our continuous integration environment on a Hudson basis. You will cooperate with our development teams in Walldorf, Bangalore and Sofia to iteratively improve the infrastructure and enhance it with new plugins. You also could support the teams with the implementation of automated test that are to be integrated into the "build, deploy and run on submit" environment.

We expect you to bring practical experience in Java development with some knowledge of software build tools like Ant or Maven. Ideally you bring some experience with continuous integration tools like Hudson. You should have good analytical skills and a quick comprehension. You should be a team player that likes to cooperate and communicate with other developers.

You will have the opportunity to work in a central and responsible position within our organization. You will have close contact with our developers and be able to help them raise their productivity. Last, but not least, you will have the opportunity to learn and gain experience in the field of productive Java development within a multi-location organization.

EDUCATION AND QUALIFICATIONS / SKILLS AND COMPETENCIES

- Student (f/m) of a university or university of applied sciences
- Preferred fields of study: Computer Science or Natural Sciences
- Knowledge of Java, JEE, Ant, Maven, Hudson
- Fluent in German and English
- Good communication skills
- Ability to work in a team
- Readiness to learn and make new experiences

Your set of application documents should contain a cover letter, a tabular CV, copies of the obtained degrees and (if available) copies of your references from former employers (e.g. internships). Please describe your experience and skills in foreign languages and computer programs/programming languages as well.

! PLEASE APPLY ONLINE ON WWW.CAREERSATSAP.COM !

SAP is the global market leader for business software and thus contributes a considerable part of the world's economic power grid. At SAP you get your chance to put your ideas into action with maximum impact.
