NODE.JS DEVELOPER (m/w)

WORKING STUDENT / INTERNSHIP

Excited to connect the dots in a fast-paced AI startup in Berlin? Then help us to bring our node.js development and integration processes to the next level!

Aaron.ai is building an artificial intelligence to automate voice-based interactions between companies, customers and employees. We are looking for a student developer with a study and/or practical background in node.js, who is excited about designing and implementing cutting edge voice automation technology.

WHAT WE OFFER

- Scrum-based teamwork and modern technology stack
- Fair compensation
- Coaching of experienced CTO and young, international team
- Cutting-edge research input from cooperation with university
- Spacious Office in Kreuzberg and frequent team events

WHAT YOU HAVE

- Study background and ideally first practical experience with node.js
- Ideally, Python experience
- Ideally, experience with cloud, Linux, Docker, network security
- Interest in AI and machine learning

YOUR TASKS AHEAD

- Co-development and maintenance of node.js middleware(s)
- Support of DevOps processes and maintenance of deployment

⊠ Simply send your CV to work@aaron.ai
