

**Sapient Global Markets are looking for skilled thinkers and smart problem solvers who want to make an impact in the financial services industry, within our clients' organizations and on their future.**

### **Associate, Business Consulting**

Sapient Global Markets provides an unmatched breadth of technology, advisory, analytics, program management and operations services to help leading firms in the capital and commodity markets address today's most complex challenges in the areas of trading and risk management. We offer a comprehensive campus hire training program that provides you with the knowledge and skills needed for a successful career. At Sapient, you will work in a globally distributed team, alongside leading experts in their fields—and enjoy limitless opportunities for professional and personal growth.

As an Associate in Business Consulting you will be working hands-on within project teams; defining, planning and implementing innovative business solutions to improve business performance and manage risk for leading financial and trading institutions.

- Organize and support client workshops and meetings
- Business and strategy analysis and development
- Project management support with regards to project planning and coordination of scope, risk, quality, budget and goal achievement
- Project reporting and reviewing
- Project team support including space arrangements, events, and collaboration activities
- Processes compliance management
- Documentation management
- Quality assurance and delivery excellence management
- Unique opportunity to travel to India for a 2 to 3 month training and orientation program accompanied with other campus hires across Europe and North America

### **What we are looking for:**

- At least a 2.1 degree (or equivalent) in a subject such as Economics, Finance or a related business discipline preferred
- Keen interest in Capital and Commodities Markets and a desire to work with clients to solve their business problems
- Self-starter, flexible and adaptable to change
- Goal and solution oriented
- Customer focused and excellent client-facing capabilities
- Strong written and verbal communication skills
- Openness to travel and work on client site
- Project work experience in a team-based environment preferred
- Availability to start January 2013 or July 2013
- Legally authorized to work in the UK
