

Lufthansa Cargo AG PITIS IT Internship

Lufthansa Cargo AG, the market leader in the international airfreight industry, is looking for an energetic and well-rounded intern with knowledge and interest in IT and process management for their North and South American headquarter office in Atlanta.

The selected candidate will apply theory knowledge into practical solutions. You will be working in a close-knit team of managers and will be expected to conduct yourself in a professional and mature manner.

In our rapidly changing line of business, flexibility is a must. Job duties may change between now and the start of the internship. However, the following tasks should tickle your interest before applying.

Tasks:

- You have the responsibility to develop and maintain existing export handling software that is being used throughout North America, Canada und Brazil
- User support, trouble shooting
- Provide support in selecting new IT-Solutions for Business Process Reengineering
- Evaluate alternative IT solutions regarding cost effectiveness, quality and time frame
- Coordinate the roll-out of new IT systems and new IT releases in the area

Your profile:

- You have completed your basic studies
- You are studying IT or another related field with a focus on IT
- You must have very good communication skills in English
- You are committed and have the ability to work independently and under stress perhaps at odd hours
- You have gained practical experience during other internships in the field of IT and process management already
- You have very good skills in developing web applications using J2EE, Struts, JSP and Hibernate
- You have strong analytical skills and the ability to pick up new concepts quickly
- You are a team player and have very good social skills
- You are able to familiarize yourself quickly with new topics
- You have very good skills applying and using IT systems and tools, especially MS Office.
- Former experience in logistics, airline industry a plus.
- Former experience in graphic programming as well as using J2ME a plus

Please send us your application only if you are available to start the internship beginning **February 2007 for 6 months**. The remuneration is currently 550 EUR. Please send us via **email** only a cover letter and CV in English.
