

## alumni@work 2.0

Challenges and Opportunities  
in the German Labor Market

A new alumni@work series will start in spring 2016. It is part of the new „Step by Step“ project which is sponsored by the German Academic Exchange Service (DAAD) and supported by ABSOLVENTUM. “Step by Step” aims to facilitate the integration of the international graduates of the University of Mannheim in the (German) labor market. Therefore alumni@work 2.0 focuses on those alumni who came to Mannheim as international degree-seeking students and successfully established themselves in the German labour market after their graduation. During this discussion series they will share their experiences with our current students and talk about their transition from student to working life. Students will not only learn from the experiences of the speakers but also have the possibility to ask questions. Snacks and beverages will be provided for a little “get-together” after the presentation.

**DATES:**

**3 March 2016:** Mr. Guanyang Xian, alumni of the Mannheim Master in Management, Daimler, room: EW 154, 7 pm
