Challenges and Opportunities
in the German Labor Market

Isaac Lau

Business Consultant
UniCredit

Mr. Isaac Lau graduated from the University of Mannheim with a Master of Science degree in Business Informatics in 2012. While still a student, Mr. Lau did a six-month internship at the firm Hochtief in Essen, where he was able to broaden his horizons on the German job market and gain valuable work experience. During his years in Mannheim, he was keen on acquiring a deeper understanding of the different European cultures, which, according to him, was pivotal in finding a job later. Before graduating, Mr. Lau secured a position as a Business Consultant at UniCredit. His primary tasks are: ensuring that the IT systems continuously support the operations within the Capital Markets Division and finding innovative solutions to enhance the competitiveness of the bank.

28 April 2016

Room: EW 154, 7:00 pm

After the lecture, we invite you to join us in a casual atmosphere for refreshments and networking.

We kindly ask for your registration to: melissa.kammerer@verwaltung.uni-mannheim.de
